Her interest in the history of Alberta's agricultural and political organizations – particularly the United Farmers of Alberta government (1921 to 1935) – led to a master's thesis on the UFA and then a book on a successor group, Unifarm, published by the University of Calgary Press.

Carrol also contributed a chapter on former Alberta Liberal Premier Charles Stewart to the book "Alberta Premiers of the Twentieth Century." Carrol served on the board and then as president of Chinook Country Historical Society.

Prior to that, from an employment point of view, I was involved in the sales and marketing of a professional sales training business where I was also a trainer and motivational speaker. There have been numerous other ventures along the way so overall I would suggest that I have been an entrepreneur for a very good portion of my working life.

I have also served on numerous Boards as well as having been active in a major women's organization for almost 50 years where I have served at all levels of the Executives at both the chapter and city wide levels as well as on countless committees organizing both small and major functions.

I am now also looking at creating a whole new variety of interests to take me through the next steps of my life and retirement and trusting CALL to continue to be a wonderful source in doing just that.
