

Connecting to a Zoom session with a phone(of any type) no video.

Currently our CALL Zoom licenses anyone can phone into a Zoom meeting and connect as long as they have the meeting ID and password.

Zoom has Canadian phone numbers you can use but all are long distance from Calgary. Not a problem if the member has a long distance plan but pricey otherwise.

Zoom does offer toll free phoning but it is an option on your Zoom license and costs \$100+ per month per license, this is 5X the cost of our current Zoom licenses not viable for CALL.

These are the Canadian phone numbers to connect to a Zoom session. Just remember they are long distance calls from Calgary.
